PLANTING THE SEED

- GROWING THE

NEXT GENERATION

DR ELIZABETH
BARRON-MAJERIK MBE
INVERNESS COLLEGE UHI

About the Scottish School of Forestry

- Delivering higher education since 1980 & degrees since 1996.
- Acquired the (clear fell) site from the Forestry Commission in 1972
- The only forestry training provider delivering both HE and FE forestry education in Scotland

What do we offer?

Arboriculture and Urban Forestry	HND	PT FT
Arboriculture and Urban Forestry	HNC	PT FT
Forest Management	BSc (Hons)	PT FT
Forestry	Certificate	PT FT
Forestry	HND	PT FT
Forestry	HNC	PT FT
Introduction to Land Based Engineering	Introduction	PT FT

...as well as short courses

NC Rural Skills

Forestry Trees and Timber: Industry Leadership Group

- Workforce development
- New entrants and Talent Attraction
- Curriculum

We need to make forestry attractive to diverse range of entrants - male, female, graduates, non-graduates, ethnic minorities, younger and older entrants.....essentially everyone. When they often haven't even heard of it...

Form Partnerships

Identify the barriers...

Grabbles are creatures that live on the forest floor and are rarely seem by humans. They live on moss and fungi found around the forest. Generally Grabbles keep out of sight but due to the alarming amount of dog waste begs being left around they have been seen proteoting the disrespectful treatment of there natural habitat. All Grabbles have a fatal allergy to Dog Facces and because of this rise in Dog Waste being left in the Culloden Woods area they have come out of hiding and begun to protest the disrespect of there natural habitat and clanger to their health.

Dog Faeces isn't just dangerous to Grabbles it is also can cause issues to your health and your dogs as well. Dog Faeces can carry and spread TOXXXCARIASIS (worms) a parasite which in humans can make you feel rather ill and in some serious cases can cause blindness. Children are more at risk FROM TOXXXCARIASIS and many children do use these woods.

So please make the effort to take your Dog's Waste with you until you find a suitable bin to cispose the bag of property rather than bearing in a bush or throwing it into a tree. Other user of the Woods will appreciate it, Children will appreciate it and Gmbbies will defauntly appreciate it so...

Please take your dog's waste with you THANK YOU

...and the best story tellers
