

Graduate opportunities in 2022

Tilhill has, over the last 70+ years, planted more than 1 billion trees and, as a private company, has the greatest number of professionally qualified managers. We specialise in woodland creation and management, timber harvesting and buying, and landscaping. We strive at all times to provide an unrivalled service to our clients and customers. Tilhill is part of the BSW Timber Group, the UK's largest integrated forestry business.

Tilhill offers all its employees a friendly and challenging work environment with good personal and career development opportunities. We understand that our staff are the key to our success.

We're looking for employees with drive, enthusiasm, and passion. On joining the company, a graduate will join an office or business stream and learn every facet of that area. They will shadow colleagues who will involve them in every aspect of their work, enabling our graduate employees to build up their knowledge. We also offer mentoring, pairing each graduate with a company manager for the duration of their training period.

Our graduate programme opens in December 2021 for placements commencing June 2022 so whether you are a recent graduate, or studying for your degree – probably in forestry, land management, environmental studies or horticulture, then one of our graduate opportunities could be for you. Professional membership of the Institute of Chartered Foresters or another relevant professional body is desirable and will be supported.

Closing date for entries: 28th February 2022.

For further information or to apply for one of our graduate opportunities, please email us on careers@tilhill.com.
