

## SENIOR ARBORICULTURE CONSULTANT

### ABOUT US

TEP's arboriculture service is well established and has always been a core part of our business. The team has grown steadily to deliver a diverse range of projects across all major sectors throughout the UK and we are now seeking to further increase our presence in the north-east of England and the Scottish Borders.

We are looking for an experienced Senior Arboricultural Consultant with the confidence and ability to lead and coordinate projects, and with an enthusiasm for business growth and development.

### THE ROLE

We are seeking a committed professional who can demonstrate the application of BS 5837 and tree risk assessment, and who takes a pro-active and positive approach to project leadership. We need someone who is versatile and experienced in collaborating with a range of other professionals; someone who enjoys developing professional relationships with clients, acting as the day-to-day contact, and who can be trusted to deliver high quality work.

The role sits within and is supported by our 11 strong team of arboricultural consultants. It comes with the opportunity for continued self-progression and longer-term managerial responsibilities for the right candidate.

You can expect to be involved with and support projects of varying size and complexity, from domestic tree inspections and tree hazard evaluation right up to national infrastructure projects and expert witness work. You will have the opportunity to work on projects that are helping shape the UK's housing, road, rail and energy infrastructure. It is anticipated that you will help promote and develop TEP's arboricultural services in the north-east.

You will be part of a collaborative team who seek to improve the standard of tree care and promotion through our work and activity. The role is based in our Gateshead office, but we anticipate flexibility with hybrid working arrangements as well as the opportunity to visit TEP's other offices as project, social events or training priorities dictate.

TEP provides a wide range of services to public, private and charity sector clients. We also sit on framework panels for Forestry Commission, Anglian Water, United Utilities and National Churches Trust Framework.

In the last 12 months we have undertaken volume work for The Land Trust, Natural England, National Grid, English Heritage, Sunderland City Council, volume housing builders and several historic estates. We have also produced strategic tree management documents for Wirral Council, Newcastle Council, Preston Council and Manchester City Council.

**LOCATION:** Gateshead (North-East)

**SALARY:** £26,000 - £37,500 - dependant on experience

**TO APPLY:** To apply, please click [here](#) and submit your CV. For further details on the position, skills and attributes required; please visit our [website](#) and view the job specification.
